Distribution Category UC-98

# Weekly Coal Production

Energy Information Administration  
Washington, D C

**Contains Supplementary Data**

Production for Week Ended:  
December 7, 1985

## Preface

## Contents

### The WCP

The *Weekly Coal Production* (WCP) provides weekly production estimates of U.S. coal by state, as well as supplementary data which are published twice a month. Supplement 1 includes monthly statistics on U.S. coal production and aggregated annual historical data on coal supply and demand, consumption, stocks, imports, and exports. Supplement 2 contains monthly data covering electric utility coal consumption, stocks, and receipts; and coal imports and exports.

This publication is prepared by the Coal Division; Office of Coal, Nuclear, Electric and Alternate Fuels; Energy Information Administration (EIA) to fulfill its data collection and dissemination responsibilities as specified in the Federal Energy Administration Act of 1974 (P.L. 93-275) as amended. *Weekly Coal Production* is intended for use by industry, press, State and local governments, and consumers. Other publications that may be of interest are the quarterly *Coal Distribution Report*, the *Quarterly Coal Report*, *Coal Production 1984*, and *Coal Data: A Reference*.

This publication was prepared under the direction of Robert Harris, Chief, Data Systems Branch, by Judith Wood. *Questions on energy statistics should be directed to the National Energy Information Center (NEIC) at (202/252-8800).*

# Highlights

U.S. coal production in the week ended December 7, 1985, as estimated by the Energy Information Administration, totaled 16.31 million tons (bituminous coal and lignite, 16.24 million tons; Pennsylvania anthracite .08 million tons). This was 20.1 percent higher than the previous week, and was 1.4 percent higher than production in the corresponding week of 1984.

Cumulative U.S. coal production from January 1 through December 7, 1985 was estimated at 831.74 million tons, 2.1 percent below the 849.44 million tons produced in the comparable period in 1984.

The methodology used to make weekly estimates of coal production was last published in the Weekly Coal Production (DOE/EIA-0218(84/40)).

# Need Information on Electric Power?

The Energy  
Information  
Administration  
has Data and  
Projections on:

- Production
- Consumption
- Prices
- Stocks of Fuels

A black and white photograph of a field with a utility pole in the background. The field is filled with dense, low-lying vegetation. In the background, a utility pole with cross-arms is visible against a light sky. The overall image has a high-contrast, grainy appearance.
